

# Bio LF

## Biological Degreaser

**A new approach to Industrial Degreasing. A powerful Biologically rich cleaner that digests its own oily wash water.**

### KEY PROPERTIES

Bio LF contains a blend of selected oil degrading bacteria, Low Foaming cleaning surfactants and a film forming rust inhibitor. Designed for use in heated parts washers and steam cleaners.

Note: When used together with our Biological Bio Tubes, oil effluent discharges can be reduced by up to 95%.

- Biological Cleaning
- Separator Friendly
- Low Foaming

### APPROVALS

- Rust Inhibited - AMS1526B
- Separator Friendly -pr EN 858

### APPLICATION

For use in parts washers use as supplied.

For use in steam clean and pressure wash system dilute up to 1:20 depending upon oil contamination.

### TECHNICAL DATA

Appearance	Pale Yellow
Ph	8.5
SG	1.05
VOC Content	Zero
Bacterial Count	$2 \times 10^7$ cfu/ml
BOD/COD 5 day	75%

### PACKAGING

1000ltr, 200Ltr, 25Ltr, 4x5Ltr.

### SAFE HANDLING AND STORAGE

Store in original containers and avoid extremes of temperature.

For guidance on handling and disposal see **Material Safety Data Sheet.**

**OILTECHNICS**

Manufactured & supplied by  
**Oil Technics Ltd.**
