

Forecourt Bio

Biological Forecourt Cleaner

A biological forecourt cleaner that digests diesel and oil contamination and continues to work long after application.

Designed to clean pump, island and forecourt areas, Forecourt Bio's emulsion free rinse water continues to be biologically digested to significantly reduce oil discharges from separators.

Our combination of eco-friendly formulation and high performance cleaning makes Forecourt Bio the perfect all-purpose forecourt cleaning solution - **Forecourt Bio gives you industrial strength cleaning results without the hazards or toxic side effects of others products!**

Why choose Forecourt Bio?

■ Effective and long-lasting cleaning

- Contains a combination of liquid enzymes, bacteria and biodegradable cleaning surfactants.
- Effectively removes grease and oil contamination from forecourt areas and equipment such as pumps, islands and floors.
- Enhanced long lasting cleaning effects by degrading residual organics after cleaning is complete.

■ Advanced cleaning technology

- Both emulsion free and biologically enhanced, Forecourt Bio's bacteria and enzymes significantly reduce oil discharges to the environment.
- An innovative biodegradable, biological and separator friendly solution that reduces both the environmental impact and user safety of cleaning chemicals.

■ Proven effectiveness

- As part of a trial of biological cleaning products in the Netherlands, Forecourt Bio was used alongside biological oil stain remover OT8 and biological oil separator pillows Bio Tubes in a busy five-island petrol station over 6 months.
- At the end of the trial, oil separator discharges had been **reduced by 95%!**
- For full details on this trial, please visit our website.

■ Reduced hazard profile

- Non-toxic and free from VOCs and D-Limonene.
- Safer for both the environment and the user.
- No transport or storage concerns.

■ New improved formulation!

- Reformulated for improved effectiveness and reduced hazard profile.

Forecourt Bio

Biological Forecourt Cleaner

WHERE TO USE

- Designed to clean pump, island and forecourt areas.
- Replaces the need to use alkaline or caustic cleaning chemicals.

HOW TO USE

For cleaning pumps, islands and forecourt areas:

- Simply use at a 1:20 solution for general cleaning, ie 250ml per 5 litres.
- For best results, use warm water.
- Supplied in 5 litre containers, each pack being sufficient for more than 20 daily applications.

For cleaning diesel or oil stains:

- Water wet the contaminated area.
- Pour the diluted Forecourt Bio onto the stain and work in with a firm brush.
- Allow to soak for 10-15 minutes then rinse off with clean water.
- For old or stubborn stains, we recommend the use of **OT8**.

HOW DOES FORECOURT BIO WORK?

Our biological oil stain removing products contain specially selected bacteria which digest the oil stain. While the food source – ie 'oil stain' – is present, the bacteria keep on working and continue to do so until it's all gone!

For the biological action to be effective, it requires:

- Food source for the bacteria to digest, i.e. the 'oil stain'
- Warm conditions
- Oxygen
- Moist conditions
- The correct bacteria

If the first four conditions are in place, the bacteria in our products will digest oil stains - from light oils to heavy crude. The bacteria used in our products are Euro Type 1 (safe for long term laboratory application and safe for long term general public exposure).

- Further information can be found on our website.

PHYSICAL PROPERTIES

Appearance	Off-white liquid
Bacterial count	3.4 x 10 ⁶ cfu/ml
Specific gravity	0.9 - 1.0
pH @ 20°C	6.0 - 7.0
Viscosity @ 20°C mPas	Non-viscous
Flash point (°C)	approx. 250

ENVIRONMENTAL IMPACT

- Biodegradable
- No bioaccumulation potential
- VOC free
- Negligible ecotoxicity

STORAGE AND SHELF LIFE

Best stored as supplied in original, unopened containers. Do not expose to temperature extremes and prevent contamination from foreign materials.

DISPOSAL

Dispose of excess product according to your local regulations. Containers should be rinsed before recycling.

TECHNICAL SERVICES AND SALES SUPPORT

For our UK customers, our products are available 24/7 via our 24 hour emergency call out service: +44 (0) 1561 361515. Oil Technics Ltd manufacture in Scotland under ISO 9001 and ISO 14001 accredited management systems.

PACK SIZES

Available in the following sizes:
4 x 5 Litre, 20 litre, 200 litre, 1000 litre containers
