

# Powerwash SF

## Synthetic Flux Cleaner

Powerwash SF removes most types of synthetic and no clean flux as well as some resin based types effectively. It is compatible with jigs, tools, fixtures and track components and has a high flash point of 42°C.

### KEY PROPERTIES

- Removes most types of synthetic flux
- Does not damage the adhesive mounting strip or screen surface
- Has a high Flash Point and low toxicity
- Has a mild odour
- Dries rapidly and residue free, maintaining short wash cycle.

### SAFE HANDLING AND STORAGE

Store in original containers and avoid extremes of temperature.

For guidance on handling and disposal see **Material Safety Data Sheet.**
